

D-ONE HULL AND SAIL NUMBERS

Written by [Jon Hammond](#)

Friday, 01 May 2015 00:00

Hull Identification Numbers (HIN on the stern of your D-One) and Sailnumbers are related. I have spoken to Devoti Sailing & Suntouched Sailboats, they both confirm a mistake was made in recent deliveries. See below for the full explanation.

I'm awaiting the full production list from Devoti Sailing so that I can compile a comprehensive sail number list, there could be a number of 2010 boats affected.

Jon Hammond

International D-One Association Secretary.

11th Feb 2015

Built 2015: initial number 5 + serial number

Example

CZDSDL1020A508

CZ = country; DSDL10 = builder; 20 = serial number; A5 = Built Jan 2015; 08 = model year 2008

Therefore sail number 520

Built 2014: initial number 4 + serial number

Example

CZDSDL1020B408

CZ = country; DSDL10 = builder; 20 = serial number; A4 = Built Feb 2014; 08 = model year 2008

Therefore sail number 420

Built 2013: initial number 3 + serial number

Example

CZDSDL1020C308

CZ = country; DSDL10 = builder; 20 = serial number; C3 = Built March 2013; 08 = model year 2008

Therefore sail number 320

Built 2012: initial number 2 + serial number

Example

CZDSDL1020D208

CZ = country; DSDL10 = builder; 20 = serial number; D2 = Built Apr 2012; 08 = model year 2008

Therefore sail number 220

Built 2011: initial number 1 + serial number

Example

CZDSDL1010E108 (this was my first boat)

CZ = country; DSDL10 = builder; 10 = serial number; E1 = Built May 2011; 08 = model year 2008

Therefore sail number 110

In 2010 an error was made ... which lead to DSLAD being changed to DSDL for 2011 (otherwise there could have two 148 boats for example)

Built 2010: initial number 0 + serial number

Example

CZDSLAD1015C008

CZ = country; DSLAD10 = builder; 15 = serial number; CO = Built March 2010; 08 = model year 2008

Therefore sail number 015

Mistake later in 2010

Example

CZ-DSLAD1048H108

CZ = country; DSLAD10 = builder; 48 = serial number; CO = Built Aug 2010; 08 = model year 2008

Using the method for 2011 to 2015 would give a sail number of 148 (due to error) but as a 2010 boat sail number should be 048

Built 2009: no initial number + serial number

Example

CZDSLAD1001A908

CZ = country; DSLAD10 = builder; 01 = serial number; A9 = Built January 2009; 08 = model year 2008

Therefore sail number 1
